

## OUR PLANET CONSUME WITH CARE

What a place with such beautiful scenes,  
How can manage to destroy.  
Quick ring di sirene,  
Mi she quick ring di sirene.  
Things getting outa hand.  
Dead fish pan di land.  
Wi cyaah tek it no more.  
Waa fi live fi si future fi sure.  
Oxygen reduce, cause di trees dem cut loose.  
Di board hose just move,  
And nuh ask if Mr. John, nuh wash weh too,  
Cause a deforestation, yes deforestation.  
It a mash up di nation,  
And all these magnificent Island.  
We need fi protect mother earth.  
No destroy di homes of the birds.  
Protect mother earth.  
Protect mother earth

But then mi draw a short conclusion.  
Jamaicans don't tek dis wrong,  
A nuh yuh alone a destroy creation.  
Check out Africa and di United States,  
It's a shame.....  
How many wild life are destroy per year.  
Dis need fi stop,  
Dis need fi stop.  
Learn to eat what you grow  
And grow what you eat.  
Importation causes CO<sub>2</sub> increase.  
Everyone become a pollution activist,  
Tell to reuse, recycle and reduce.  
These are the three best things fi use.  
Our planet consume with care.  
Earth consume with care
